EDUCATION

- **Dr.D.Y.Patil College of Engineering, Kolhapur** Kolhapur, India
B-Tech- Computer Science and Engineering- Percentage :69.52% Dec 2021 - June 2025
- **Pratibha Niketan Higher Secondary School** Murum, India
HSC - Science; Percentage: 91.63% June 2020 - June 2021
- **Pratibha Niketan Vidyalaya** Murum, India
SSC; Percentage: 85.20% June 2018 - June 2019

SKILLS SUMMARY

- **Programming Languages:** C/C++,Java,DSA,OOP
- **Tools:** Git/GitHub,IntelliJ IDEA, Visual Studio
- **Database:** SQL/MYSQL
- **Web Development:** JavaScript,HTML,CSS.
- **Design Tool:** Figma,Canva, AI Tools.
- **Soft Skills:** Communication skills,Responsible,hardworking

EXPERIENCE

- **CODSOFT(Software Intern)Link** January 2024
I completed a Java development internship at Codsoft, where I gained hands-on experience in Java and Advanced Java. During the internship, I enhanced my understanding of object-oriented programming and software development principles. As part of the program, I developed a simple calculator project to apply and demonstrate the concepts I had learned.
- **Cognify (Web Development Intern)Link** Dec 2023
I completed a web development internship at Cognify, where I gained practical experience in HTML, CSS, and JavaScript. During the internship, I worked on real-world tasks that enhanced my technical and problem-solving skills. One of my key achievements was developing a personal portfolio website. This project allowed me to showcase the knowledge and tools I learned throughout the program. The internship helped me understand front-end development more deeply. It also boosted my confidence in building responsive and interactive web applications

PROJECTS

- **Cafe Service System—(.Net,Accessibility, Front-End(HTML, CSS, JavaScript), Design Tools: Android Studio,SQLite,Figma,Canva):** Developed a comprehensive Café Service System that automates customer service, order processing, and table bookings. The system is built using .NET, HTML, CSS, and JavaScript to enhance personalization and user experience. It streamlines café operations by providing real-time booking, menu browsing, and efficient service management. The project focuses on responsive data handling and intelligent service recommendations to improve overall customer satisfaction.
- **Cafe Billing System—(Java,Framework-Swing,iTexPDF, Tools:Vscode,github):**): This project is a Java Swing application for a cafe management system, allowing users to select and order drinks and cakes. It features a graphical user interface (GUI) that displays menu items, their prices, and quantities, while calculating totals, taxes, and service charges. Users can generate and print receipts in PDF format, as well as save billing information to a text file for tracking daily profits. The application includes functionalities for resetting orders and exiting the program .

CERTIFICATION

- C/C++ programing by Greatlearning
- Web Development,Java Development by Udemy
- HTML,CSS by udemys

HONORS AND AWARDS

- Member of codstorm club of CSE Engineering
- Runner's Up at Codstorm Hackathon - Feb, 2023
- Secured 2nd place in Chess Competition at Dr.D.Y.Patil College of Engineering, 2023

EXTRA-CURRICULAR ACTIVITIES

- Playing badminton and chess
- Exploring New things

VOLUNTEER EXPERIENCE

- **Event Organizer at Association for Codstorm Student Club** Kolhapur, India
Organized events, conducted workshops and delivered workshops reaching over 250 student. Feb 2024
